

14 MAY 1976

The President  
The White House  
Washington, D.C. 20500

Dear Mr. President:

I have taken all necessary actions to implement those provisions of your Executive Order 11905 as relate uniquely to the Central Intelligence Agency. These actions, set forth in Tabs A through H, codify in the CIA Headquarters regulations all new or clarifying duties and responsibilities of the Agency, all restrictions that you have imposed on CIA activities, the increased authorities and new responsibilities of the General Counsel and Inspector General with respect both to Agency matters and oversight activities, and such notices and memorandums as necessary to inform Agency personnel of these changes.

I also have notified all CIA overseas [REDACTED] installations of the restrictions placed on their activities by the Executive Order and of the guidelines issued by the Attorney General for conducting those activities permitted by the Executive Order only within limits and in a manner prescribed by the Attorney General. STATINTL

Other actions affecting the Intelligence Community as a whole are in preparation or under study. I will advise you in the near future of the nature of such actions as I have taken or propose to take to implement these community-wide provisions of the Order.

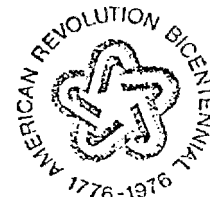

Sincerely,

/s/ George Bush

George Bush  
Director

Originator:

John F. Blake

21 May 1976

MEMORANDUM FOR: Mr. Richard Lehman

FROM : Michael J. Malanick, Associate  
Deputy Director for Administration

SUBJECT : Biweekly Progress Report on E.O. 11905

1. Re IC Staff Move--

An extensive and concentrated overtime Agency effort is presently underway to prepare in-house specifications, scopes of work, and design requirements drawings which are anticipated to be completed during the week of May 26 and submitted to GSA for performance contracting processing. GSA anticipates the need of approximately five to six weeks to process contract documents, initiate invitations to bid for a selected bidders list of contractors, bidding period, examination of bids, negotiation of contract, contract award, and notice to proceed. Since the Selective Service Commission expects to vacate the Building by June 1, every effort is being made to begin modifications activity as close to this date as possible. It is estimated that construction can be completed by late October to early November. All efforts will be directed to reduce this timing within the reasonable and realistic abilities of the successful contractor to accomplish the work in a minimum period of time.

2. Re implementation of E.O. 11905 into Agency regulations and procedures--

During the period covered by this report, a letter was prepared and transmitted by the Director to the President indicating that the Agency had completed those actions which were required uniquely of CIA by E.O. 11905. A copy of this letter is attached hereto.

STATINTL

Michael J. Malanick
